

The Science of Hydration

HYALOGIC'S **NEW**

HYABOND™

Hair Bond Multiplier

HYABOND™ combines **Hyaluronic Acid**, **Terabond™** and **ProVitamin B5** to rebuild broken disulfide protein bonds caused by styling tools and chemical processing. **HYABOND™** helps repair damage and lock in hydration for vibrant, healthy hair and simply reduces frizz. Great for all hair types: fine, medium, coarse and coily.

Hydrate your clients' hair back to health.

We believe in the shortest ingredient list possible.

Hyaluronic Acid (HA) can bind up to 1000 times its weight in water. The HA in this formula carries proteins into hair and hair follicles to hydrate the bonds back together.

Terabond™ is a reactive system that covalently bonds to amino acids and keratin fragments in human hair, including broken disulfide linkages. It is a natural, high performing Plex bond multiplier.

ProVitamin B5 helps hydrate and strengthen hair, retain moisture to add shine, softness and elasticity.

Directions:

Can be used with lightener in foils, balayage, on-scalp, all hair colors or as a stand alone treatment. Great for all hair types.

• \$5 or \$10 Treatment Charge

Ingredients:

Water, Aspergillus Ferment, Arginine (Terabond™), Sodium Hyaluronate (Hyaluronic Acid), Glycerin (Vegetable), Phenoxyethanol, Ethylhexylglycerin, Panthenol (ProVitamin B5).

BENEFITS:

- Repairs dissulfied protein bonds to **strengthen hair**
- Protects against **color fade**
- Conditions** hair
- Hydrates** hair to improve strength, resiliency and elasticity
- pH balancing formula defends against the negative effects of **hair coloring and heat styling**
- Vegan formula** with no animal derived ingredients
